

EXTRA50-RV

APPLICATION

TYPE

Impact-resistant quick-action drill chuck with radial locking and metal sleeve. With through-hole for use of a locking screw.

CUSTOMER BENEFITS

- Easy clamping and locking with one manual operation for maximum user-friendliness
- Radial locking device to prevent release of the drill bit during clockwise and counterclockwise rotation
- Impact-resistant for universal use

TECHNICAL FEATURES

- With carbide inserts in the clamping jaws
- Equipped with collision protector by freely rotating protection disc
